BS and PD-100 options

ABENE VHF-350 TI

A new Vertical/Horizontal Milling Machine with stepless spindle speeds frequency controlled, between 55-3000 rpm. Spindle Power 7,5 kW Longitudinal: X = 760 mm, Cross: Y-table = 350 mm, (Overarm= 480mm.) Vertical: Z = 500 mm. Control: Heidenhain TNC-310T .

New ABENE Milling Machine with adjustable over-arm. Larger movement in X/Y and stepless spindle speeds through a 2-step gearbox gives an even more flexible and universal machine. Higher spindle speed for today's tools and materials. The most perfectly matched machine with an unbeatably unique design in over 60 years.
